REASONS WHY YOU SHOULD TEACH ENGLISH!

- 1 Combine your passion of language and culture with traveling, and earn money while doing it. Many people would love to travel the world but need to save money before setting off, however this doesn't have to be the case if you can work while abroad. The fact you will be earning money by teaching your own language will make your time traveling even more satisfying.
- 2 Experience—and really "live" global culture. This is the main reason people go abroad. If you have a hunger to learn more about the world or a specific country.
- 3 Enhance your Resume'. If you decide you want to return home at any point, you will have gained valuable life skills which will enhance your chances of being successful when applying for future jobs.
- 4 Acquire new language and cross-cultural skills. While it is not a requirement of a TEFL teacher to know the native language, just spending more time abroad will help you to increase your language skills and pick up a new fluency and culture.
- 5 Set off on the adventure of a lifetime. We all know someone who has traveled to exotic locations and returned with impressive stories of time spent abroad. By teaching abroad not only will you return with tales of the sights you saw but you will also know that your time was well spent helping locals learn a language that could benefit them so much in the future.

Via Lingua TEFL Certification Courses are not just excellent opportunities to add experience to your Resume', but a great opportunity to explore the world. Teaching abroad allows you to fully engage with the local culture while helping to shape a part of the community here. You will meet amazing new people and it can be a life-changing experience. If you have a passion for languages, travel, teaching and adventure, please consider a Via Lingua TEFL Certification Course.
